## Information & Features

### 2017 MAN CR (Engine 1)

Type:	<b>Inboard</b>	Drive Type:	<b>Shaft Drive</b>	Propeller Material:	<b>Other</b>
Fuel Type:	<b>Diesel</b>	Power:	<b>800 hp</b>		
Hours:	<b>700</b>	Propeller Type:	<b>4 Blade</b>		

### 2017 MAN CR (Engine 2)

Type:	<b>Inboard</b>	Drive Type:	<b>Shaft Drive</b>	Propeller Material:	<b>Other</b>
Fuel Type:	<b>Diesel</b>	Power:	<b>800 hp</b>		
Hours:	<b>700</b>	Propeller Type:	<b>4 Blade</b>		

### Dimensions

LOA:	<b>16 m 89 cm</b>	Max Draft:	<b>1 m 30 cm</b>
LWL:	<b>14 m 15 cm</b>		
Beam:	<b>4 m 85 cm</b>		

### Weights

Dry Weight:	<b>24,000 kg</b>
-------------	------------------

### Speed

Cruising Speed:	<b>26.5 kn</b>
Max Speed:	<b>30 kn</b>

### Seating

Seating Capacity:	<b>14</b>
Max Passengers:	<b>14</b>
Liferaft Capacity:	<b>12</b>

## Tanks

Fuel: **2,500 l**  
Fresh Water: **340 l**  
Holding: **80 l**

## Accommodations

Single Berths:	<b>1</b>	Cabins:	<b>3</b>
Double Berths:	<b>1</b>	Heads:	<b>4</b>
Twin Berths:	<b>2</b>		

## Other

Hull Shape: **Modified Vee**

## Covers

- Cockpit Cover: Bimini sul fly con led

## Electrical Equipment

- Shore Power Inlet  
- Generator  
- Inverter

## Electronics

- Depthsounder	- Plotter	- Cockpit Speakers
- Radar	- DVD Player	- VHF
- Log-Speedometer	- Autopilot	
- Radar Detector	- Radio	
- Computer	- Compass	
- TV Set	- CD Player	
- Navigation Center	- GPS	

## Inside Equipment

- Seakeeper	- Manual Bilge Pump	- Refrigerator
- Stern Thruster	- Microwave Oven	- Deep Freezer
- Dishwasher	- Air Compressor	- Sea Water Pump
- Bow Thruster	- Air Conditioning	- Battery Charger
- Washing Machine	- Electric Head	
- Electric Bilge Pump	- Heating	
- Oven	- Hot Water	

## Outside Equipment/Extras

- Teak Cockpit	- Swimming Ladder
- Cockpit Shower	
- Hydraulic Gangway	
- Radar Reflector	
- Liferaft	
- Cockpit Cushions	
- Cockpit Table	

## Descrizioni fornite dal cantiere

The Ferretti Yachts 550 is the result of the cooperation between AYT&D, the Group's research, development and style department, and Studio Zuccon International Project. It is characterised by a brand-new hull, and equally brand-new are the layout of the engine room and that of the main deck, as well as the interior arrangement. In addition to this, special care has been devoted not only to guaranteeing maximum production efficiency and effectiveness, but also to optimising the yacht's weight balance, thereby ensuring great performances even if small, light and low-consumption engines are installed.

The profile of the boat is characterised by sober, streamlined, slender lines, blending together refined elegance and a sporty character. The uninterrupted glazing running across the main deck further enhances the boat's rakish profile, and is complemented by a large, aerodynamic flybridge. Three large glazed surfaces - the cabins windows - can be found on both sides of the hull. Each has flush frameless fibreglass portholes resulting in very clean lines.

This yacht's interior spaces and onboard equipment allows it to be on an equal standing with much larger yachts. Many outdoor relaxation areas have been conceived: the forward dinette area, furnished with facing sofas and a table; the large sunpad on the deckhouse; and the cockpit, featuring a large aft sofa and a table. On the flybridge, the storage cabinet and the restyled, small-size pilot station instrument panel allow to extend the relaxation areas - both the sunpad and the comfortable dining area - even more.

The Group's Centro Stile has found very appealing décor solutions, adding elegance to all onboard ambiances and preserving the range's unique Made-in-Italy style and charm. The cockpit and the aft area of the salon stand out for an impressive décor consistency. Indeed, the teak flooring found in the cockpit continues indoor, in the galley and the entrance, visually and 'physically' harmonising these different environments. This flawless continuity is also ensured by the new three-section glazed door that can be folded to starboard and concealed behind the stairs leading to the flybridge. The perfect harmony between form and content, aesthetics and functionality is completed by the ceiling panel decoration, which is the same in the salon and outdoor, creating as a sort of 'style mirror' that welcomes all guests at best. The cockpit thus becomes an extension of the interiors, which can be opened completely onto the sea on all sides.

## Additional Description - ITA

### Descrizione Interni

Ferretti Yachts 550, inedito per disegno dello scafo, organizzazione delle sale macchine e impianti, e layout di tutti gli interni, è come sempre il brillante risultato della pluridecennale collaborazione fra il Gruppo, in particolare il suo dipartimento Engineering, e lo Studio Zuccon International Project. L'imbarcazione unisce eleganza e spirito sportivo: le linee di Ferretti Yachts 550 sono infatti razionali e, al tempo stesso, esteticamente seducenti. La finestratura continua in coperta "taglia" il profilo e ne accentua il dinamismo, mentre le tre grandi vetrate a scafo sulle murate, in corrispondenza delle cabine, si integrano perfettamente nel design complessivo offrendo una straordinaria visuale dall'interno e una grande luminosità naturale alle cabine. Gli oblò a filo sono inseriti in vetrata senza alcuna cornice in vetroresina, a garanzia della massima pulizia estetica. Il flybridge ribassato e la nuova zona lounge di prua sulla tuga, senza impattare sull'aspetto filante dello yacht, regalano favolosi spazi per il relax all'aperto, in totale privacy.

### Descrizione Armamenti

Aria condizionata salone + cabine + equipaggio

Cabina marinaio con wc e lavello

Pozzetto, gradini accesso camminamenti laterali e spoiler di poppa in teak

Bimini top con illuminazione Led

Terza stazione di comando fissa con copertura in pozzetto

## Additional Description - ENG

### Interior Description

Ferretti Yachts 550, unpublished for the design of the hull, organization of the engine rooms and systems, and layout of all the interiors, is as always the brilliant result of the decades-long collaboration between the Group, in particular its Engineering department, and Studio Zuccon International Project. . The boat combines elegance and sporting spirit: the lines of Ferretti Yachts 550 are in fact rational and, at the same time, aesthetically seductive. The continuous windows on the deck "cut" the profile and accentuate its dynamism, while the three large hull windows on the sides, in correspondence with the cabins, are perfectly integrated into the overall design, offering an extraordinary view from the inside and a great natural brightness to the cabins. The flush portholes are inserted in glass without any fiberglass frame, to guarantee maximum aesthetic cleanliness. The lowered flybridge and the new lounge area in the bow on the deckhouse, without impacting the sleek appearance of the yacht, offer fabulous spaces for outdoor relaxation, in total privacy.

### Description Armaments
